

CENTURION®

SORBAVIEW® SHIELD WITH ADHESIVE-FREE ZONE

Packaged with BIOPATCH®
Protective Disk with CHG

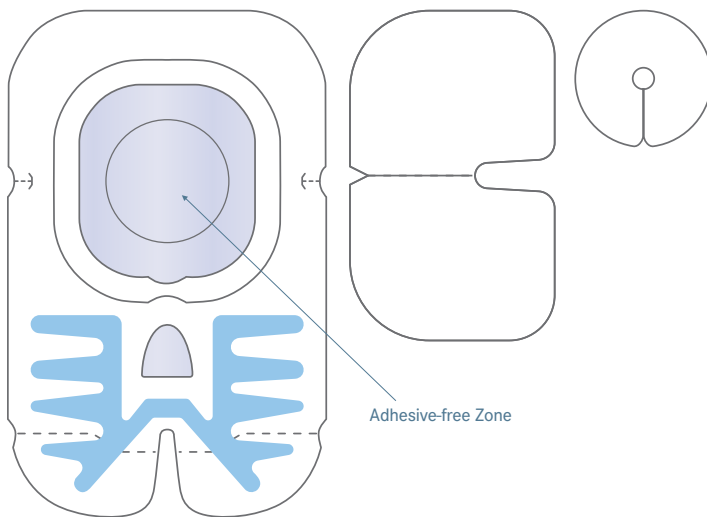

Reduce Infection Risk With Proven Protection

Protect your arterial-line patients with Centurion's SHIELD Securement System. Designed with input from doctors and nurses, this convenient system combines two products in one – the small SorbaView® SHIELD with Adhesive-Free Zone and BIOPATCH® Protective Disk with CHG. Together the SHIELD and BIOPATCH offer patients superior protection against both infection and dislodgement.

BENEFITS FOR CAREGIVERS, HOSPITALS AND PATIENTS

- SorbaView SHIELD prevents catheter movement and dislodgement – increasing patient comfort and catheter dwell times
- SorbaView SHIELD provides proven bacterial barrier, lowering the risk of patients contracting a hospital-acquired infection (HAI)
- BIOPATCH is the only product of its kind proven to reduce bloodstream and local infections in patients with central venous and arterial catheters
- SHIELD's adhesive-free zone won't stick to BIOPATCH, reducing chance of accidental catheter migration during dressing removal
- SHIELD Technology provides effective catheter securement as part of the normal dressing procedure – no extra steps or costly caregiver time needed
- Securement System with BIOPATCH is simple to apply and remove

INNOVATIVE SOLUTIONS FOR ARTERIAL LINES
