

CENTURION®

SORBAVIEW® SHIELD
FOR EPIDURAL APPLICATIONS

Packaged with 24" Perforated Tape

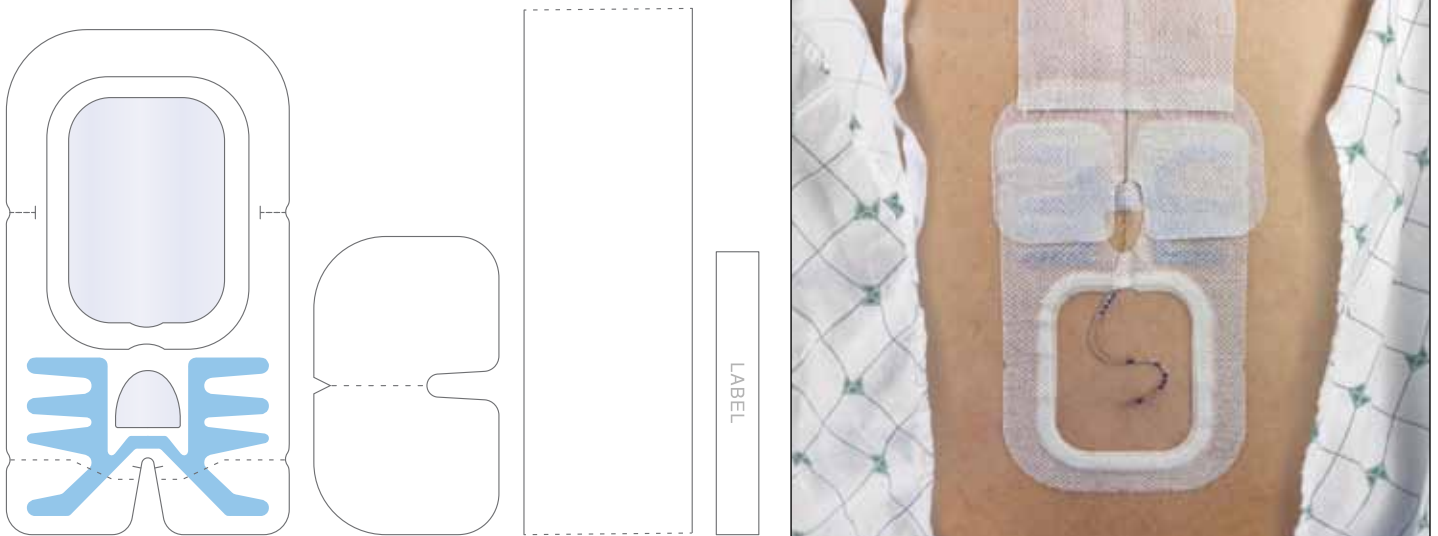

The SorbaView SHIELD for epidural applications, the SV37FL24XT, includes a 24-inch-long tape strip that's perforated every 6 inches for versatility – perfect for securing the long tubing used in epidural procedures.

BENEFITS FOR CAREGIVERS, HOSPITALS AND PATIENTS

- SorbaView SHIELD offers all the benefits of a SorbaView Dressing with built-in securement to protect the catheter and site:
 - Provides a proven barrier against contaminants, while allowing the skin to breathe freely
 - Meets a 7-day dressing protocol for central lines
 - Designed with input from doctors and nurses
 - Featuring strong adhesive that keeps dressing securely in place, yet is gentle and non-irritating to skin
- SHIELD Technology provides effective, built in catheter securement and stability as part of the normal dressing procedure – no extra steps or costly caregiver time needed
- Securement System with perforated tape strip is simple to apply and remove
- Latex free, non-sensitizing adhesive makes the SHIELD comfortable for patients to wear
