

CENTURION®

SORBAVIEW® SHIELD **OVAL**

The new SorbaView® SHIELD Oval is the latest addition to our line of superior catheter securement dressings. The large window and border are specifically designed to accommodate bulky catheters and Huber needles.

## BENEFITS FOR CAREGIVERS, HOSPITALS AND PATIENTS

### OVAL BENEFITS:

- SorbaView SHIELD Oval was specifically designed with a larger window and border to accommodate bulky catheters and Huber needles
- Closure piece designed to complement dressing profile while providing additional securement
- Larger window accommodates smart routing of catheter

### GENERAL BENEFITS:

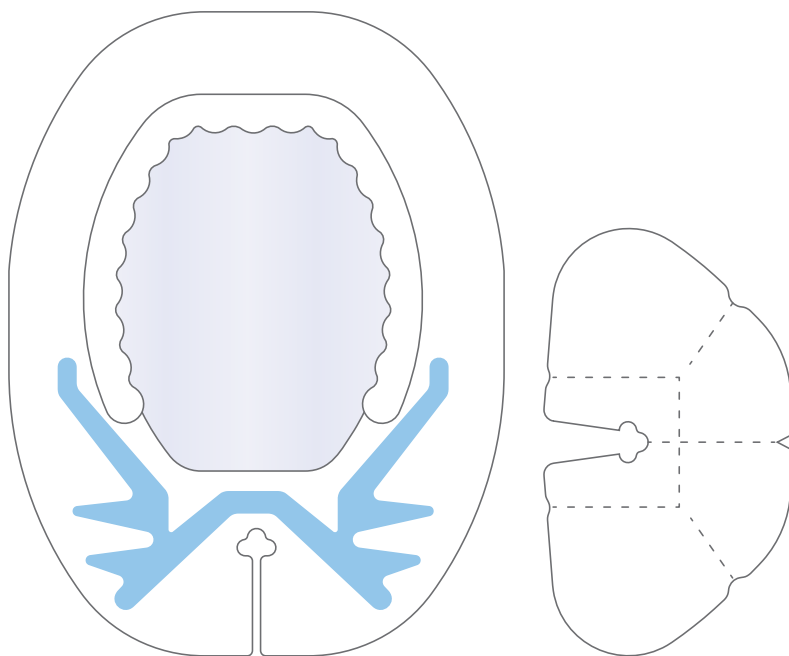

- Shield Technology™ provides effective catheter securement and stabilization as part of the normal dressing procedure - no extra steps needed
- Establishes a standard of care and eliminates inconsistent methods of securement
- Using one product instead of two lowers costs
- Prevents catheter movement and dislodgement

- Easy to apply - won't stick to itself during application

### CENTRAL LINE BENEFITS:

- 7-day wear time means fewer dressing changes and reduced labor costs
- Provides proven barrier against bacteria and contaminants, lowering the risk of Central Line Bloodstream Infections (CLABSIs)

## INNOVATIVE SOLUTIONS FOR LARGE AND BULKY CATHETERS
